

# ALEX AUDIO BUTLER USER MANUAL

## HOW TO INSTALL ALEX AUDIO BUTLER

### Installing **Alex Audio Butler**

1. Start by downloading the Alex Audio Butler Installer through the link in the Email.
2. Install Alex Audio Butler by following on screen instructions ( Before installation make sure to close all video editing software)
3. Now scan and authorize in you video editing software (see instructions for **Premiere Pro and DaVinci Resolve** below) (When updating an active installation only step 1 & 2 are needed)

## SCANNING IN PREMIERE PRO

1. Once the installation completes, in Premiere Pro open "Audio Plug-in Manager" through Preferences -> Audio.
2. Click on "scan for plug-ins".  
After scanning, Alex Audio Butler.vst3 will appear in the available plug-in list.
3. Enable Alex Audio Butler, if it's not enabled. Close the Plugin Manager

# LICENSE AUTHORIZATION IN PREMIERE PRO

1. From the menu bar - click on Window
2. Click on " Audio Track Mixer ", this will reveal the "Effects/Sends" section.  
( Note: By default Effects/Sends section is closed. You can open it by clicking the triangle in the top left corner of the panel)
3. Load an instance of Alex Audio Butler in the one of the slots with the triangle through VST3 > Tools > Unimule.
4. A pop up will appear, asking you to authorize Alex Audio Butler. For that, you require a "License Key"
5. The License key will be provided to you at the time of the purchase, you can find it in your email.
6. Copy the license key and paste the key inside the license box and run the online authorization.
7. To confirm if everything succeeded, double click on the Alex Audio Butler slot to open the graphical interface.

(If you don't see the license window pop up in step 4, open the interface like in step 7, and click on it. The License Window might be on an other screen, or behind an other window).
